Dear Sir:

In response to the Office Action of June 28, 2005, Applicants hereby elect the embodiments of Invention I for prosecution in the subject application. Invention I includes claims 1-37, 42, 44, and 45. This election is made with traverse. Contrary to the Examiner's assertion, the groups of claims identified by the Examiner include overlapping subcombinations.

MPEP §806.05(d), which is cited by the Examiner, requires that the distinct inventions be two or more subcombinations. Clearly, Applicants' claims 38-41 (Invention II) and 43 (Invention III) each includes a subcombination that overlaps with the subcombinations claimed in Invention I. Thus, Applicants respectfully traverse this Restriction Requirement.

Applicants, of course, reserve the right to file divisional applications covering the subject matter of the non-elected inventions.

Applicants await a first office action on the merits.

Respectfully submitted,

 (Reg. No. 45,034)
